## News Release NL327

April 2019

### Wavelength dispersive X-ray Fluorescence Spectroscopy

A new and unique range of very high performance X-ray Fluorescence systems

Dedicated systems for  
Cement, Minerals, Slag,  
Steel and alloy production

Introducing a new and innovative range of high speed Wavelength and Energy Dispersive X-ray Fluorescence Spectrometers that provide superb performance with a very affordable price tag .

Features include

Dedicated or combined WDXRF and EDXRF

Element range Na to U

Very low power X-ray source with “high power “ performance

10 dedicated channels for multi element simultaneous analysis + options for EDX

The resolution and sensitivity is the best on the market today

Options include “ side by side carbon Sulfur analysis

With a starting price less than \$49500 we think they are also very competitive

Low cost of ownership

Installation and software training provided around the world

Simply the best WDXRF ever.....
